## Review Approved 03

The screenshot shows a GitHub pull request interface. At the top, a green banner indicates that the pull request has been merged. Below this, a message from 'TanjemAhamed' states that a review was requested from 'Aryan-Bin-Jahur-BJIT' one minute ago. A green checkmark and the name 'Aryan-Bin-Jahur-BJIT' confirm that the review has been approved. A comment box shows the user's approval. Below the comment, a message states that the pull request has been successfully merged and closed, and the 'latestupdate' branch can be safely deleted. The right sidebar contains metadata for the pull request, including projects, milestones, development status, notifications, and participants. The bottom of the screen shows a Windows taskbar with the search bar and system clock.

## Cloning the remote repository:

Below the Command Prompt, a preview of the cloned repository is shown. The title is 'Local Dining Guide' and the description is 'Web Based Dining Information Solution'. The preview includes a welcome message: 'Welcome to the Local Dining Guide project! This web-based software solution is designed to provide users with comprehensive dining information, making it easy for them to explore and discover local restaurants, cafes, and eateries. Whether you're a food enthusiast looking for new culinary experiences or a traveller seeking the best dining'.

## Creating branches

The screenshot shows the Visual Studio Code interface. The Explorer pane on the left shows a project named 'CYANIDE01' with a 'LICENSE' file and a 'README.md' file. The README.md file is open in the editor, showing a table of contents and a list of development technologies. The terminal window at the bottom shows the output of a 'git status' command, indicating that the working tree is clean and there are no changes to commit.
